

A Thrush up my Arse

Yeve got menopause Miss Fakewitt, and no the trivial sort either. It isnae helped by living in the effete Sooth o England either. With this stark diagnosis Fanny Fakewitt heeds the advice offered (expensively) by disgraced GP Elijah McFigeon, that she should go to a remote Scottish island and get the soft southern-ness kicked out of her. And this she does through the guidance of landlady and sage, Seagga (pronounced Shagga) Bannox. By turns funny, and then hilarious, this rough examination of a womans middle period will stand scrutiny against the worst medical advice ever given.
