

Popcorn Press's fourth annual celebration of horror poetry, this year focused on the mythos of H. P. Lovecraft, and in particular his most famous creation, Cthulhu., the monstrous cosmic entity that lies dreaming beneath the ocean, waiting for the stars to align and free him. Old fans of Lovecraftian tales will find here fresh visions to darkly delight. For neophytes, the collection serves as an introduction to the horripilating thrills in the work of Lovecraft and the many writers he inspired. The anthology contains a treasure trove of verse—haiku, senryu, lures, tanka, sijo, free verse, a sestina, sonnets, some alphabetic morph rhyme, even a lipogram—along with several great flash-fiction pieces and short stories. Cthulhu awaits you.
