

Fire and Emergency Services Safety & Survival with Resource Central -- Access Card Package (Fire and Emergency Services Safety and Survival)

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Normal 0 false false false EN-US X-NONE X-NONE

The Fire service has long been considered a profession plagued with a history of unavoidable tragedy. As the number of line of duty deaths and injuries continues to be staggering year after year, Fire and Emergency Services Safety and Survival exposes the false mentality of doing whatever it takes and provides solutions for both the individual and fire department. The content developed is based on the 16 Life Safety Initiatives developed by the National Fallen Firefighters Foundation. Under the guidance of an editor, each chapter is written by a contributor with extensive expertise on the topic, and incorporates FESHE and NFPA references guidelines throughout. Complemented by Key Terms and Review Questions as well as a robust supplements package in MyFireKit for both students and

instructors, this first edition text focuses on the need for a cultural and behavioral change in the fire and emergency services and asks each reader to challenge the existing attitudes toward safety.
