

Like your romance on the rough side? Like your men dominant? Happy with sharing? Try this bundle! Native Spirits, a paranormal Western, focuses on Emma, a pioneer alone on the plains. One simple mistake, and she's made an enemy of the King of the Werewolves. He will claim her as his mate, but not before she pays for her crime. Her punishment? Being shared among his men. The Stranger, a post-apocalyptic tale, is the story of a mythical man who visits the village once every seven years. They will remain safe, if they offer him a young, untouched bride. Though all others are terrified of being chosen, Heather rigged the election so that she would be the one picked. She wanted him since she first saw him, and would submit to any depraved desire so that she might be his! Hells Raiders is another apocalyptic story, about the gritty realities of surviving without civilization. Rachel has had to remain tough and ever vigilant, but being alone has worn down her resolve. She needs allies, and the dangerous motorcycle gang seems perfect. With so few women left alive, she has something very special she can trade for their protection. But what will she do when she develops feelings for the MC President? That's over 40k dangerous, steamy words! Check out all three full series!
