

This book initially was written to teach machinists how to read blueprints. All phases of blueprint reading are featured in this book, and it has simple examples that make understanding the drawings easier. The author chose formulas that are less complex than those in much of the material out currently making her book more accessible for readers.

Nuclear Power in India: A Critical History, Eleya: il potere della luce (Italian Edition), A Preliminary Report on the Clays of Idaho, The Enchanted Prince, Intelligent Vision Systems for Industry, Lectures on Ion-Atom Collisions: From Nonrelativistic to Relativistic Velocities (North-Holland Personal Library), Manual of Photogrammetry 3ed 2vol,
